

Education

2019-2020

AL MANAR - Marrakech

High school diploma in
Mathematical Science B

2020-2022

FSSM UNIVERSITY - Marrakech

Computer Mathematical
Science (SMIA)

2022-2025

UM6P - 1337 Coding School -
Tetouan Software Engineering
Student

Work Experience

2019 / Present

Freelance UI Designer &
Web Dev

- Designed user-friendly UI and transformed them into functional web applications

2025

Graduation Internship

- Designed, developed, and organized a full-stack web application.

Language Skill

- English
- Frensh
- Arabic

Expertise Skill

Programming Languages : C, C++,
JavaScript, node.js, express.js React

Web Development : HTML, CSS

Databases : MySQL, MariaDB,
MongoDB

Tools : Git, Docker

Os : Windows, Linux, macOS **Design**

Software : Adobe Photoshop,
Illustrator, Figma

AMINE EL GAOUEJ

Motivated software engineering
graduate of UM6P - 1337 Coding
School

Latest Projects

WEBSERVER

Role: Developer

- Developed an HTTP server using C++ and Unix sockets with a focus on performance.

INCEPTION

Role: Developer

- Created and deployed Nginx, WordPress, and MariaDB images using Docker & Docker-Compose

FT_TRANSCENDENCE

Role: Full Stack Developer & UI/UX Designer

- Designed, developed, and organized a full-stack web application. Implemented game mechanics, including ball physics, player movement, and scoring using JavaScript . Developed key features such as a chat system, player profiles, and a friends system ... Utilized Docker for containerization, ensuring seamless deployment and environment consistency.

UM6P BookSmart(UBS)

Role: Full Stack Developer (MERN STACK)

- A full-stack web application developed for UM6P (University Mohammed VI Polytechnic) that streamlines the management of conference rooms and meeting spaces. Built using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented real-time room tracking, automated email notifications, and role-based authentication. Built responsive UI with modern design principles, integrated RESTful APIs, and engineered efficient MongoDB database schema for seamless data management. Reduced booking conflicts by 90% and enhanced resource utilization through automated reservation system.
