

ABOUT ME

Creative and versatile MERN Stack Developer with strong UI/UX skills and a background from 1337/42 coding school. Experienced in building dynamic web apps and solving real-world problems through technology.

MED AMINE ELGAOUEJ

SOFTWARE ENGINEERING

EDUCATION

- **Software Engineer** 2022-2025
UM6P - 1337 Coding School
- **FSSM UNIVERSITY** 2020-2022
Computer Mathematical Science (SMIA)
- **AL MANAR - Marrakech** 2019-2020
High school diploma in
Mathematical Science B

LATEST PROJECTS

- **CASAPUS (UM6P)**
Role: Full Stack Dev (MERN STACK)
Developed a web-based platform to streamline and automate all campus services at UM6P Casablanca during my internship. The system centralizes room reservations, catering, health center appointments, access control, reception, and IT help desk into one unified solution, improving efficiency and user experience.
- **FT_TRANSCENDENCE**
Role: Frontend Developer & UI/UX Designer
Designed and developed the frontend and UI/UX of a full-stack web application featuring a real-time multiplayer pong game. The platform includes player profiles, chat, matchmaking, tournaments, and customizable assets all built with a clean, responsive, and interactive user interface.
- **INCEPTION**
Role: DevOps
Created and deployed Nginx, WordPress, and MariaDB images using Docker & Docker-Compose
Configured and containerized Nginx, WordPress, and MariaDB using Docker and Docker-Compose to enable seamless communication between services.

LANGUAGE

- **English** (Good)
- **French** (Good)
